

CHAITANYA ENGINEERING COLLEGE
Approved by AICTE, New Delhi, Affiliated to JNTU, Vijayanagaram
Chaitanya Valley, Kommadi, Madhurawada, Visakhapatnam-48

1.1 Curricular Planning and Implementation.

1.1.1. This Institution ensures effective curriculum delivery through a well planned and documented process.

Chaitanya Engineering College affiliated to Jawaharlal Nehru Technological University, Vijayanagaram offers various programs and courses with an effective curriculum plan structure. The college runs more in a practical way than a direct lecture method. A plan of action is followed by the college to raise the growth and development of children both in academics and sports and other cultural activities. Our college follows the academic calendar issued by Jawaharlal Nehru Technological University, Vijayanagaram. Principal, Heads of the Departments, faculty co-ordinators prepare a draft of the time table according to the JNTUG Academic Calendar which includes theory classes, practical's, soft skills, campus recruitment training process, NSS Programme and co-curricular activities like sports which enhance students academic excellence and personality development.

The college adheres to and functions as per the academic calendar issued by JNTUG. It is displayed on the notice boards and in the college website. The college academic calendar is formulated according to the JNTUG academic calendar and needs of the children which results in their overall development. The examination branch strictly follows the calendar issued by JNTUG and conducts the internal exams and monitors the evaluation process.

and learning process. Student's performance is assessed by conducting assignments, Mid-exams which helps the teacher to make necessary improvements in the respective fields. Principal takes feedback from students to know the completeness of syllabus and effective teachings of teachers. It helps the organization to make necessary corrections if needed.

The college is well equipped with smart classrooms, computer labs, science labs and other infrastructure and ICT facilities which are extensively used by both students and teachers for their effective learning and teaching process respectively.

The institute follows choice based credit systems, self learning courses, skill oriented courses and some industry offered courses for undergraduate programs and also utilizes Learning Management Systems (LMS). Vocational courses to enhance skills of students which are useful for their employment are also included in curriculum. Internships and live projects are also undertaken by students to enhance employability skills.

The college academic committee invites proposals from various departments for skill development course schedules and certificate or add-on programs in the curriculum to enhance the overall development of the students.
