1. Restricted entry of vehicles

All the faculty members and students are allowed to park their vehicles on the campus only on certain restricted zones.

Since the institution is situated in the heart of the city and has access to public mode of transportation, the majority of the staff and students commute through public transport, such as RTC buses, auto's, etc, which in turn, reduces carbon dioxide emissions on the campus. For the sustainable development of the society, usage of fossil fuels is reduced.

2. Use of Bicycle/ battery powered vehicles

Pollution-less transportation

The College uses Bicycles for in-house transport or Pedestrian path ways, Chaitanya Engineering College restricts all outsiders, vendors, parents, and student vehicles are restricted so as to create a pollution free campus.

3. Pedestrian-friendly pathways

Pedestrian-friendly pathways are laid out on the campus. The laid out pathways is kept clean and green. CHAITANYA ENGINEERING COLLEGE campus follows the pedestrian-friendly pathways in all the areas of Campus

4. Ban on the use of plastic

The college is continuously committed to work towards creating a single use plastic- free campus.

Workshops and seminars are conducted to remind/educate students and the staff members to create plastic free campus.

Conducting rallies to bring awareness to neighbourhood communities

5. Landscaping with trees and plants

- Numbers of species are also found on the campus. Plants pertaining to Flora and Fruits bearing trees are found on the campus.
- As per the green practices on the campus Chaitanya Engineering college instead of bouquets sampling are given to guests in order to create green environment
